

Dear Parents,

Modoc Joint Unified School District uses a computerized system for tracking student's grades. The "Aeries" program makes it possible for parents and tutors to monitor each child's academic progress and attendance. In order for us to check your child's grades, missing assignments, and otherwise assist them academically, we must first have access to their Aeries account.

By signing this document you give the Strong Family Health Center tutors permission to access your child's Aeries account.

Sincerely,

Strong Family Health Center Title VI Tutors
